

## Membership Fees

The annual Membership fees we charge all of our members are our main source of revenue. Your contribution helps support the good governance and operations of a globally recognised international standard, allowing us to develop standards, engage with decision makers and work alongside other organisations.

A range of membership fees are applicable depending on the type, size and/ or purpose of an organisation. For organisations that are commercially active in the steel supply chain, annual membership fees are determined by annual turnover / revenue:

Annual revenue (USD)	Membership fee (USD)		
	Steel producers and processors	Other businesses (Including Associates)	Not for profits
>\$20 billion	\$60,000	\$38,000	\$0
\$10 billion - \$20 billion	\$38,000		\$0
\$5 billion - \$10 billion	\$35,000		\$0
\$1 billion - \$5 billion	\$20,000		\$0
\$100 million - \$1 billion	\$7,000		\$0
\$1 million - \$100 million	\$1,200		\$0
<\$1 million	\$150		\$0

**Please note that fees are to be paid annually to remain a Member of ResponsibleSteel.**

Renewal Membership Invoices are sent out in December for payment in January. For any members joining throughout the year there is a 50% reduction for approved members from 1 July - 31 December in the year of joining.
