ResponsibleSteel Forum III

Annie Heaton
CEO ResponsibleSteel
ResponsibleSteel has developed the world’s first international standard for responsibly sourced and produced steel.”

- 133 members across steel value chain
- 13% global steel market by volume in membership
- First international standard for responsibly sourced and produced steel
- Tough new requirements on GHG and input materials
- 13 ESG principles, >500 requirements
- Independent assurance programme
- 52mt covered by certification to date
Why does ResponsibleSteel exist?

Our Purpose

To maximise steel’s contribution to a sustainable world
How do we achieve this?

Our Mission

To be a driving force in the socially and environmentally responsible production of net-zero steel, globally
1.5°C – scale of the challenge

Mission Possible Partnership

1. 1.5C scenario needs:
   - 170mt near zero primary steel by 2030
   - ≈ ResponsibleSteel Level 4

2. ≈ 500mt primary steel → ResponsibleSteel Level 2 by 2030
   - = 25% global steel

Ensure INTEGRITY

Inspire & INFLUENCE

Deliver IMPACT
Our Strategy

... to be a driving force in socially and environmentally responsible production of net-zero steel, globally

**Momentum 2025**

**Ensure INTEGRITY**
- High quality standards and trustworthy assurance
- Capacity to support growth

**Inspire & INFLUENCE**
- RS is the most trusted steel standard globally
- Thriving membership
- RS standard is common currency in key ESG frameworks

**Deliver IMPACT**
- Roll out of RS certification in key markets globally
- Industry progressing towards 2030 SDGs and global 2050 net zero
Thank you
